EXAMINER'S COMMENTS/REASONS FOR ALLOWANCE

The following changes to the drawings are required:

Drawings

The drawings are objected to under 37 CFR 1.83(a) because they fail to show adjustment bolt 43 as described in the specification. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Drawings

The drawings are objected to because figure 6 incorrectly shows the piston rod 31 as the link 6. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach an artificial knee joint comprising the combination of elements as claimed including a push rod disposed movably within a joint body and a biasing member for biasing said push rod. It is noted Azhedi et al (6,517,585) teaches a similar knee joint but fails to teach the above noted elements and instead uses an

"elastomeric spring element 14c". It is the Examiner's position that it would not be obvious to replace the elastomeric spring element of Azhedi et al because of the placement of the piston rod connection would produce interference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce E Snow whose telephone number is (703) 308-3255. The examiner can normally be reached on Mon-Thurs.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on (703)308-2111. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
